

## Conservation Campaign To Impress Children

Importance of Exercising Precaution Against Forest Fires is Object of Campaign.

To develop forest consciousness and emphasize the urgent need for conservation and protection, a campaign has been inaugurated by Forest Ranger J. H. Boulton, of Coleman, in which the schools of the Crow's Nest Pass will participate.

A large spruce tree has been cut into sections, each of which has been placed in the various schools at Hillcrest, Maple Leaf, Bellevue, Frank, Blairmore and Coleman. The children are given an opportunity to examine the section in their school, and must then make an estimate of the life of the tree from which it was cut. The approximate age has previously been determined by the forest ranger.

The children in each school making the nearest estimate of the age of the tree are awarded first, second and third prizes, the money for this having been donated by J. Cardie, manager of Maple Leaf mine; W. Stevenson, manager of Hillcrest Collieries; G. A. Vissac, general manager of West Canadian Collieries at Bellevue and Blairmore; O. E. S. Whiteside, general manager of International Coal & Coke Co. Ltd., and G. Kellock, vice-president and general manager of McGillivray Creek Coal & Coke Co. Ltd.

The importance of educating the children in forest conservation is emphasized by the Canadian Forestry Association and the Forestry Service of the Department of the Interior, especially in view of the increased fire hazards prevailing every year, with the influx of automobile tourists who often carelessly drop lighted cigarettes or matches and thereby unintentionally start fires which prove a very destructive menace to valuable timber.

During the first week in June the prizes will be awarded by Forest Ranger Boulton, and he will also distribute interesting literature to the children, which contains a wealth of useful information for those who may use the forests for pleasure or other purposes. Over 2000 children will participate in the competition.

### KING'S BIRTHDAY

The Post Office hours for Tuesday, June 3rd, the King's birthday, will be for one hour only, 9:15 a.m. to 10:15 a.m.

## HOMING PIGEONS MAKE FLIGHT FROM MED. HAT

Bucking a Heavy Head Wind and Snow Fly Over 200 Miles in 7 1/2 Hours.

In 7 hours and 45 minutes a homing pigeon owned by Chas. Makin flew from Medicine Hat to Coleman against a very stiff wind on Sunday, a distance of over 200 miles.

A flight of 15 birds were released at Medicine Hat at 7 a.m., one of Makin's arriving here at 2:45 p.m. He wins a \$10 pair of shoes donated by Wm. Bell, of the Grand Union Hotel, and the pool put up by the local fanciers.

John Anderson's bird was second to arrive four hours later, and the second bird of Makin's to arrive was on Monday morning; the third he expected on Tuesday. Mr. Pryde also had some birds in the flight.

John Anderson, president of Coleman Homing Pigeon Association, and Chas. Makin, attended a meeting with Calgary fanciers in the Alexandra Hotel on Saturday. Calgary members were pleased to welcome the representatives of the newly formed Coleman club, and showed them around a number of their lofts, giving them seven pigeons to add to their lofts here.

Edmonton and Lethbridge were not represented, but it is planned to hold a provincial meeting later in the year for all clubs. A cup valued at \$250 is being put up by the proprietor of the Alexandra Hotel.

## Local News

Sidney White of High River spent the week-end here with friends.

R. F. Barnes is in Macleod today on legal business.

Mr. and Mrs. A. S. McIntock were visitors to Calgary over the week-end.

Alex Cornett came down from Red Deer to spend the holiday with his family.

Miss Collins of Calgary was the guest of her sister, Mrs. C. J. Devine, over the week-end.

Dr. Borden has been in Edmonton for two weeks on special examinations.

The playground equipment for the schools is being installed. A. E. Knowles having charge of the work.

## Inland Petroleum Ltd. Appoints Officers

Company Organized by Well-Known Local Men Has Large Holdings in South.

At a meeting of the shareholders of Inland Petroleum held at the head office of the company in Coleman the following officers and directors were appointed:

President, Alex M. Morrison, Coleman; vice-president, Geo. Fier, Natal; secretary and managing director, Arthur M. Densmore, Lundbreck; directors, Geo. Cruickshank, Hillcrest; T. Harry Cox, Fernie; John Shanks, Nordegg, Alta.; auditor, Albert F. Short, Coleman; solicitor, R. F. Barnes, Coleman; bankers, Canadian Bank of Commerce.

Inland Petroleum Limited hold 5000 acres of oil leases, 3200 of which are located on the Blood Reserve structure near the Commonwealth, 1000 acres on the Mill Creek structure, where the Weyman Petroleum are now drilling; 60 acres near the Devonish well at Skiff; 200 acres on the Watson structure north of Lundbreck, and 240 acres in the Red Coulee field.

It is the intention of the company to drill their first well in the Red Coulee field on a location to be selected shortly by the company's geologist.

The company is financed for its first well and plans are being formed for the financing of further development.

A. M. MORRISON who heads company of well known local men in new development

### HOSPITAL NOTES

Jules Ancelot is a patient, being admitted with a badly injured thumb, caused by hitting it with an axe, necessitating amputation.

John Ondrik, whose ribs were cracked in an accident at International mine, is progressing.

Paul Churs of East Coleman, recently operated on, is expecting to leave the hospital this week.

Little Willie Hill is making steady progress following an operation.

Mike Vavrecan is also making good progress from an operation.

## All Shades of Politics Looming in Campaign in Crows Nest Pass Towns

Enthusiasm in Provincial Election is View as Independents, Chris Tompkins, well known Sun Life representative in the Pass, and R. E. Gillis, well-known barrister of many years.

From such a field of starters, any return is likely to happen when the returning officer, James Ford, opens the pot for nominations on June 9.

The executive committee of Joseph Stobbs election campaign were in session here on Tuesday evening at the K. of P. hall, but no official statement was handed out to the press as to the proceedings.

In order to give all parties a square deal, reports of meetings will be reported as fully as possible in The Journal and the daily press, but the Editor reserves the privilege of his personal comments during the campaign, in the editorial columns.

There are 18 polls in Rocky Mountain Electoral District, which includes Key, editor of the Drumheller Mail, who is the nominee of the Canadian Labor Party, the enthusiasm which marked his appearance at Blairmore May Day demonstration has subsided to a marked degree, and his name has been supplanted by a rumor that the Rock Sudworth, a well-known mine worker of Coleman, would receive the endorsement of the Communists here. This rumor cannot be confirmed at time of going to press.

Another man spoken of as a possible candidate is James Brewster. Jim has studied deeply, has a wealth of information stored in his cranium of particular interest to labor men, and knows all about digging coal for a living. Moreover, he has the gift of oratory to talk out any other man on the platform. He would take the field as an Independent.

As Labor in the past has had contestants from among the business men of the Pass, there is a probability that competition may again enter in from this source. George Cruickshank of Hillcrest, a past master of the Masonic Grand Lodge of Alberta, big mogul in amateur hockey circles of the province, and a popular fellow among all who know him, is looked on as a candidate who would make a very good run, and who would make a particularly strong appeal to the thousands or more voters at Banff, a town which is not usually keenly interested in provincial politics, owing to it being under entirely federal government jurisdiction. Moreover, he has shown a keen interest in Labor, naturally enough, his business having been built up in a mining town.

In order to be in the running Blairmore, it is rumored, has two men in

### MAJORITY HELPED

Lieut. Jacob Zoutendyk, on being interviewed as to the progress of the self-denial campaign in Coleman stated that in nearly every instance those approached had given help, but the depressed state of business has lessened the total amount as against last year. He appreciated the fact that his effort has been responded to by the majority, and that refusals had been very few among the business men and others.

## Ottawa Dallies on Freight Rates

Action of Dominion Government on Request for Freight Subvention Awaited.

The request of operators of bituminous coal mines in Alberta for a subvention of freight rates is again to the fore.

Telegrams in the past few days have been forwarded to Premier King and cabinet ministers from the Western Canada Fuel Association during its annual convention in Regina, from the Mine Workers Union of Coleman, and from the secretary of the operators, J. R. Smith, of Blairmore.

The secretary of Coleman Miners Union pointed out that there are 400 less men employed than a year ago, and those who are working are only on half time. This state of affairs has been carrying on now for over nine months and is the cause of much destitution and is getting more acute every day that this condition prevails.—D. Gillespie, secretary.

Western Canada Fuel Association at its annual convention in Regina sent the following telegram to Premier King and Hon. Chas. Stewart, minister of the interior: "We, the Western Canada Fuel Association, in annual session are particularly anxious to know when your government intends giving a decision on the matter of the coal operators' request for a subvention. Your immediate reply will be appreciated."

A reply was received as follows by W. R. Kell, secretary of the convention: "Your telegram received; subvention on western coal to Manitoba market will be considered next week in supplementary estimates.—Chas. Stewart."

### MRS. COOTE STRICKEN AT OAKVILLE, ONT.

Mrs. G. G. Coote, who has spent a large part of the winter in Ottawa with her husband, the federal member of the Macleod constituency, left the capital city about two weeks ago for her home in Nanton, staying over (Impi Lilya) and many handsome presents were received. Following the social a very enjoyable dance was held.

## Effort Maintained For Rate Subvention

Secretary of Local Union Emphasizes Depressed Condition of the Coal Industry.

Copy of lettergram sent to Premier King, Hon. Chas. Stewart, Peter Heenan, minister of labor, and G. G. Coote, M.P., for Macleod:

"I am instructed by Coleman Miners Local Union to insist that your government take immediate action on the coal operators' demand for a subvention of rates as a means of relieving unemployment. We have 400 less men employed in Coleman than we had a year ago and those who are working are only on half time. This state of affairs has been carrying on now for over nine months and is the cause of much destitution and is getting more acute every day that this condition prevails.—D. Gillespie, secretary."

Western Canada Fuel Association at its annual convention in Regina sent the following telegram to Premier King and Hon. Chas. Stewart, minister of the interior:

"We, the Western Canada Fuel Association, in annual session are particularly anxious to know when your government intends giving a decision on the matter of the coal operators' request for a subvention. Your immediate reply will be appreciated."

A reply was received as follows by W. R. Kell, secretary of the convention: "Your telegram received; subvention on western coal to Manitoba market will be considered next week in supplementary estimates.—Chas. Stewart."

The Boy Scouts' whist drive on Monday evening was attended by forty people, and the prizes were won by Mrs. Guevard, Mrs. G. Derbyshire, Mrs. Snowdon and Mrs. Kilgannon, and the door prize by Mrs. G. Derbyshire, with a high score of 100.

A shower was held in the Finnish hall in East Coleman on Tuesday evening of last week, in honor of Mrs. Clarence Huffman (nee Miss for her home in Nanton, staying over (Impi Lilya) and many handsome presents were received. Following the social a very enjoyable dance was held.

### A Hobby Essential To Life

Every person, old or young, should have a hobby. And why a hobby? Because a hobby means an interest beyond the mere task of making a living and because an interest is necessary to the enjoyment of life.

Life without interest would be a dull, prosaic affair. Yet there are some people who keep their noses to the grindstone day after day, year in and year out in a dull routine to provide the wherewithal to feed, clothe and shelter themselves and their dependents, without a let-up from daylight to dark. They never look around for some interest which will serve to brighten their lot and bring joy into their lives.

There are, of course, some men who are fortunate enough to have found in their vocation that keen zest which an outside interest gives to them, but it has been found by age-long experience that even such happily circumstanced individuals can and do pursue their work with better results and with greater contentment and less wear and tear when, to their work, they add a hobby.

"All work and no play makes Jack a dull boy" has been quoted so often that it has become platitudinous. Yet it is just as true today as when it was first uttered.

When the child puts his books away and closes his school desk for the day, he proceeds to enjoy himself with games and recreation in some form or another and in this manner revivifies himself for another day at scholastic tasks. Educationists have discovered that the child who plays in school brings to his school work an enjoyment which enables him in the long run to outstrip the pale faced bookworm. He has a balanced and therefore a happy existence and this reflects favorably upon his studies.

And so with the adult. But in place of flying kites or indulging in boisterous play, the grown up carries his enthusiasm into the field of some sedate, but just as stimulating amusement. It matters little whether it is collecting postage stamps, indulging in politics, playing saw and hammer or engaging in some form of academic study, so long as it is something which arouses the interest of the participant and whets his appetite for more; and so long as it is something different from the daily task.

It is this creation of interest which acts as a stimulus to the mind or a recuperative power to the physical being. It is at the same time restful and invigorating. This is why the individual with a second string to his bow, even if it be only used for recreational purposes, is more likely to make a success of life than one without it. He is able to turn again to the serious work of making a living with the hope and joy which comes with a buoyant spirit, a rested body and a clear, refreshed mentality.

It is impossible to pursue a hobby without securing these results, provided it is kept within reasonable bounds, for recreation broadens interest and interest means life. Interest with existence is life. Life without interest is mere existence.

The time to develop interest is in youth. It is too late to wait until the pains and penalties of advancing years are taking their toll and forcing retirement from active work. The individual who waits until he is obliged to slacken the traces on which he has been pulling heavily for decades before looking around for an interest will find he faces an old age of misery, for he has developed nothing to which he can turn to make his declining years worth living.

The youth, the middle aged, the old, of both sexes should have a hobby and should develop a hobby in comparatively early life.

#### Explodes Old Theory

Plants do no harm in sleeping rooms at night, says a plant expert of the U.S. Department of Agriculture, for "a whole greenhouse full of plants would not give off enough carbon dioxide to injuriously affect the composition of the air."

#### Graded Beef In Demand

Officially graded beef is now being served in the dining rooms of the British House of Commons and in many London Clubs. Hotel and restaurant proprietors are also serving it, and the London housewife is beginning to ask for it.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians for 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

## Acid Stomach

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

#### Prevention Better Than Cure

Annual Examination By Doctor Would Ensure Good Health

The annual conference of the Canadian Social Hygiene Council, at Toronto, made one sound recommendation to the public. That was to have an annual examination by a doctor.

It is a trite saying that prevention is better than cure. When a person feels well, or rather if a person does not feel ill, or is not bothered by a pain of any kind, the assumption is that the organs of the body are functioning normally, but the fact that so many people are taken ill suddenly, proves the fallacy of that belief.

Health should not be taken for granted, simply because one is apparently well. It should be proved by test, and if there is a condition that betokens a break-down of the inner machinery of the body in the near future, the doctor can repair the damage, or stave off the evil day, before it has gone too far.

Many a man or woman has got a nasty jar on visiting a doctor about some minor trouble and being told that something serious is developing, or has developed. The average being does not like visiting his doctor, and usually leaves it until circumstances compel examination, but an enormous amount of sickness, an enormous number of operations, would be avoided if the habit of having an annual examination were universal.

Lots of people are more careful about the interior works of their automobiles than they are about the interior works of their own bodies.

### THE ANAEMIC GIRL

Who Has Lost Her Charm and Beauty

"She seems to be losing her looks." This remark is often heard about girls who were once noted for their sparkling eyes, their rosy cheeks and their vitality. The cause is not far to seek—they have become anaemic; the accounts for the pallor and the loss of charm. The anaemic girl, if she neglects her health, may be a sufferer all her life.

Take heed, you pale, anaemic girls. Plenty of fresh air, nourishing food and rest will help you, but what you need most is good blood. Those wretched headaches, that fickle appetite, those terrible heart palpitations can only be banished if the blood is rich, red and pure.

Good blood—the kind that brings good health—is created by Dr. Williams' Pink Pills. The whole mission of these Pills is to build rich, healthy blood. The Pills are sold by all dealers in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Trade Deer For Bear

Bartering back to the old days of barter, Winnipeg's Public Parks Board closed a deal with the Parks Board of Fort William. A husky little brown bear from the lakehead comes to Manitoba in exchange for two red deer. Each board paid freight on its own consignment.

### Heart and Nerves

Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes:—"Several years ago I was troubled with my heart and nerves and was so bad, at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

#### What's In a Name?

Not Very Much As Proved By Book

The answer to the question "What's in a name?" seems to be clearly defined as the result of a questionnaire recently sent out by a firm of book publishers in an endeavor to ascertain what sells books. The 10,000 replies received to date show that only 190 purchased the books because of their titles. More than 3,450 sales were attributed to reviews; 2,460 to advertisements and so on through the recommendation of a friend, reputation of the author, bookstore display, interest in subject, gift, lecture or sermon, with the title at the bottom of the list.

Uruguay's national anthem is in 70 verses.

W. N. U. 1839

## SCIATICA?

Here is a never-failing form of relief from sciatic pain:

Take Aspirin tablets and you'll avoid needless suffering from sciatica—lumbago or rheumatic aches and pains. Get relief; they don't do any harm. Just make sure it is genuine.

#### When Grain Kings Meet

Valuable Information Will Be Exchanged At World's Exhibition

In midsummer of 1932, the city of Regina will become the clearing-house for world thought and knowledge on every important branch of field-crop production and marketing. Agrarian experts from all around the globe will gather at the World's Grain Exhibition and Conference to be held at the Saskatchewan capital in late July and early August.

More than \$200,000 has been offered in more than 1,500 prize awards for cereal, grass, clover and vegetable-seed exhibits, separate sessions of the grain conference in conjunction with the exhibition are expected to be a most important portion of the program. Papers are to be read on agronomy, economics, including marketing, milling and baking, agricultural machinery, insect pests and friends, and other subjects.

English and French, it has been decided, will be official languages. Provision will be made for interpreters. It is contemplated that brief resumés of all papers—whose average length is limited to 2,000 words—will be printed in the two official languages and circulated to delegates before commencement of sessions. The meetings will be held during the mornings of the two-week conference.

Possibility of a short series of purely scientific conferences is envisaged by the executive of the Regina gathering; if such a series is found to be necessary, the meetings will be arranged so that they will not conflict with regular conference sessions.

It Bids Pain Begone.—When neurotic racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Balm. It will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

#### Pope Pius Has Gold Telephone

Instrument For Personal Use Is Ornamented With Mother Of Pearl

The Pope's small state of 500 inhabitants soon will have what is probably the greatest proportion of telephones to population in the world. With the installation of a new system there will be 800 numbers, of which 600 shortly will be in use.

Pope Pius' personal telephone will be of massive gold, bearing the Pontifical seal and ornamented with mother-of-pearl. He will be able to telephone anywhere without his call passing through the exchange. Special private lines also will be installed for the Secretary of State and other dignitaries.

#### As the Scots Said

The news that Weihaivel is being relinquished by Britain to China may recall to a few old-timers Punch's cartoon of more than thirty years ago, showing two aged Scots engaged in the following dialogue: First Scot—"Ah see wa hae Weihaivel." Second Scot—"Hae we?" First Scot—"Aye, we hae."

#### Use Minard's for Burns.

A catalogue of latest dietary fads for women has just been issued by a London grocer.

Old medicinal gardens of Japan date back at least to 702 A.D.

### First-Aid

For all pains and aches, foot troubles, cuts and bruises, or general massaging purposes, Minard's simply can't be beat.

#### An Accidental Discovery

Scientists Find Fish Scales Can Be Used As Fabric Coating

For hundreds of years Eve has taken her clothes from the wool of sheep and the skins of animals, but now she has gone one better—she is to wear fish scales of fish.

Soon the smartest Eve will shimmer like mermaids. A firm at Berlin has at last patented a process by which fish scales can be used as a coating for various fabrics. Among many advantages is that the new material has a remarkable power of keeping out heat.

It is intended, also, to use a coating of artificial pearl on thin oilskin coats. These latest rain-proof garments will be light and completely waterproof, and when wet they will have a beautiful pearly glitter.

The discovery that fish scales could be used for this novel purpose was more or less accidental. Scientists were endeavoring to improve the process by which artificial pearls are made when they stumbled across the new idea.

After several attempts they found a method of washing, drying and grinding fish scales which produced a fine crystalline powder. This is mixed with a solution of artificial silk in collodion, and can be painted thinly over the oil skin.

Persian Balm Is Irresistible. Fragrant as summer flowers. Cool as a mountain spring. Wonderfully invigorating. Softens and whitens the hands. Makes skin soft-textured and youthful. Used by women as a powder base and as a peerless aid to beauty complications. Used by men as an effective hair fixative or shaving lotion. And for children, nothing soothes and protects their tender skin like the delicately cool Persian Balm.

### Reindeer Trek halted

Will Not Resume Journey Until Fawns Can Travel

Three thousand reindeer, being driven across "the top of the world," into Canada, on the order of the Dominion Government, have halted their long march in the Humboldt Colville River sections, until the end of the fawning season.

The herd will wait there until the new-born deer are strong enough to join the drive, which follows a route north of the Arctic Circle across Alaska to the McKenzie River basin, of the Canadian Arctic.

#### Minard's Checks Falling Hair.

Market For Salt Increasing The Canadian production of salt except for small exports is sold in Canada principally to the dairy, meat curing, fisheries, and chemical industries, and as table salt for household use. The market for salt in Canada is steadily increasing.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

According to an English weekly paper, the police always stop the traffic to let Mr. George Bernard Shaw cross the road. The idea of stopping Mr. Shaw to let the traffic pass is said to have been abandoned years ago.

## WRIGLEY'S

When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.

Keep awake with Wrigley's CK 14

### Western Province Benefits

Will Collect Succession Duties On Estate Of English Baronet

Revenues of the province of Saskatchewan will benefit to the extent of \$14,331 by way of succession duties on the estate of Sir John Lawrence Langham, Bart., who died recently in London, England, and whose will is now being probated. Sir John left \$1,003,926, of which \$277,952 is in Canada, \$193,652 in Alberta, and \$484,300 in Saskatoon real estate. The Saskatchewan property under the Succession Duty Act of the province, will be taxed at the rate of 17 per cent.

For treatment of caked bags in cows or goats, use Douglas' Egyptian Liniment—the quick, sure remedy. Saves time and expense. Prevents blemished stock.

Paris has restricted automobile parking in the central area to thirty minutes, and physicians have banded together to ask for exceptions of this hampering regulation.

#### Campers Carry Minard's.

The Italian government is making strenuous efforts to assist the olive oil, wine and other basic industries.

EVERY BIRD LOVER should have this new revised edition of — Bird's Book on Birds—replete with 342 pages of valuable information on the care and feeding of cage birds; also enlarged (80 pages) of practical advice on the treatment of bird diseases. The regular price is 25 cents, but to readers of this paper who enclose 10 cents, addressed to the WINNIPEG NEWSPAPER UNION, McDERMOTT AVENUE, EAST, WINNIPEG, a copy of Bird's Book on Birds will be sent along with a generous sample of Bird's Bird Book—a correctly balanced diet prepared from the finest foods, together with all parts of the world, together with the free from your bird, a sample of Bird's Bird Book, a tonic that strengthens the plumage and strengthens the song.

Every Bird Lover Should Have This Book

## DISCUSSION ON INSURANCE FOR THE UNEMPLOYED

Ottawa, Ont.—A scheme of unemployment insurance for Canada must of necessity be supported by government subsidies, said Prof. Gilbert E. Jackson, of the University of Toronto, addressing the Canadian Political Science Association in annual session here.

Even in England, Prof. Jackson said, where labor statistics dating back 60 years were available, it had been found necessary to support the scheme by state assistance. It would be almost impossible to carry on unemployment insurance by workers' contributions alone in Canada, where the expectation of employment in future seasons could not be as well charted as in England, even.

The unemployment situation was more cruel in Canada than in any other country because of wide fluctuations, not only in seasonal employment, but in demand for labor as between the various provinces.

Questions which, he contended, must be carefully considered before putting such insurance into effect were whether there was in Canada a sufficient body of public opinion in favor of it, and whether there was danger that the energy of the Canadian workers would be sapped by the system.

Benefits of the scheme would be largely dependent on an associated scheme of health insurance, and a greatly extended employment placement service.

### No Duty On Foreign Wheat

British Government Is Opposed To Tax Says Minister

London, England.—The question of preference for the Canadian wheat-grower in the British market over foreign wheat-growers came up in the House of Commons. Rt. Hon. William Graham, president of the Board of Trade, in reply to the suggestion, said the government did not intend to impose any duties on foreign wheat, so that the question of granting Canada preference did not arise.

The answer brought a spirited query from the Conservative benches. "Do we understand the government's reply to the Canadian tariff concessions is that we can only treat them the same as we treat foreign governments?" Mr. Graham was asked.

"Not necessarily," the cabinet minister replied. "The questioner spoke of a tax on all imported wheat. The government is opposed to this."

### Toronto Man Killed When Parachute Fails

Was Making First Attempt To Jump From Airplane

Toronto, Ont.—Attempting his first parachute jump from an aeroplane, Kenneth Burgess, Toronto, was killed when the parachute failed to open. The aeroplane was at an altitude of 1,500 feet when Burgess jumped. The unopened parachute caught on a tangle of telephone wires, hurling him into the ditch. He was alive when picked up and a doctor was summoned, but he died a few minutes later.

The aeroplane was a Colonial Airways machine, which left the company's field near Dufferin Street in North York Township.

Burgess is survived by his widow and two children.

#### Special Stamp Issued

Melbourne, Australia.—During a short and intensive campaign to assist the appeal of the prime minister of Australia, Hon. James Henry Scullin, for the growing of more wheat this year, the postal department has issued a special cancellation stamp bearing the words: "Grow More Wheat."

#### No Press Men On Dirigible

London, England.—The only press information that will be given respecting the R-100 flight across the Atlantic will be that kept by Wing Commander R. B. B. Colmore, who will release it on the craft's arrival in Canada. On the return trip Canadian and British newspapermen will be carried.

#### Dry Ice Test Shipment

Brandon, Man.—Two cars of eggs of the Manitoba Co-operative Poultry Association were shipped to Montreal under the dry ice test. This means insulated containers are placed in the cars and that circulating carbon dioxide gas preserves the eggs.

W. N. U. 1839

### Ask Amendment Of Criminal Code

Christian Scientists Want Clause Introduced For Their Protection  
Toronto, Ont.—A despatch from Ottawa to the Toronto Star, says that in a bill introduced by the government to amend the criminal code, a change has been made at the request of Christian Scientists. In three sections, which deal with the obligations of heads of families, people in charge of the sick, and masters and mistresses of servants and apprentices under sixteen. It is explained the purpose of the section is to permit Christian Scientists to practice their beliefs without fear of prosecution.

The new sub-section which is suggested for the criminal code in this regard is as follows: "Any obligation which may be involved in this or the two preceding sections to supply medical or surgical attendance as 'necessaries,' or 'necessaries of life,' shall not apply to, or affect persons using or depending on prayer or spiritual means for the treatment of human ailments as an enjoyment or exercise of religious freedom."

### Suggest Advisory Board

Commission Would Help To Solve Problem Of Immigration

Ottawa, Ont.—Establishment of an advisory commission on immigration, on lines similar to the tariff board, was one of the many suggestions dealing with the immigration problem at the annual meeting of the Canadian Political Science Association here. The suggestion was made in a paper by Prof. W. B. Hurd, of Brandon, Man.

In his opinion the regulation of immigration was a matter for scientific economists and sociologists, rather than politicians. A commission could make a continuous examination of employment and social conditions throughout Canada and could give expert advice to the governments on the number and type of immigrants which could profitably be admitted. Persons interested in securing immigrants for any district would have to make application before the commission adducing evidence of an economic rather than a sentimental character.

### Will Arrange Rating

Bay Route To Be Brought Under Crow's Nest Agreement

Ottawa, Ont.—Hon. T. C. Crerar, Minister of Railways, stated that it is the policy of the Federal Government to enforce Crow's Nest Pass rates on the Hudson Bay Railway. The railway will be in operation one year hence, and Mr. Crerar said that he proposed to take immediate steps to discover what the legal position is. He will consult with the railway commission and find out exactly if Crow's Nest Pass rates automatically apply to the new route. If not, he will initiate action to bring the Bay route under the Crow's Nest agreement.

### Saskatoon Cadets Victors

Win Junior Shield In Dominion Rifle Shoot

Ottawa, Ont.—A youthful team of cadets of Nutana Collegiate Institute, Saskatoon, Sask., won the junior shield in the winter cadet shooting indoor series held throughout Canada under the auspices of the Dominion of Canada Rifle Association. A report issued from headquarters of the association shows the Saskatoon cadets compiled a high average of 97.11 out of a possible 100. The Quebec Ben-Lary team won the senior cadet shield with a shooting average of 98.80.

#### Germany Contradicts Report

Berlin, Germany.—A statement was published here from the Chinese north coalition by way of London, England, that the French authorities of Indo-China have intercepted a consignment to the Nanking government of poison gas, which, it was clearly intimated, came from Germany. The German foreign office, however, it is said, anti-German propaganda.

French Troops Leaving Rhineland  
Frankfurt-on-the-Main, Germany.—Evacuation of the Rhineland has been started in this sector of the third zone of occupation. Heavy artillery, pioneer equipment and columns of troops are moving toward France in the final exodus which will strip the Rhine of French soldiery.

#### Nansen's Successor

Oslo, Norway.—Prof. H. U. Sverdrup, of Bergen, Norway, has been named to succeed the late Dr. Fridtjof Nansen, explorer, as leader of the proposed Graf Zeppelin Arctic flight.

### Naval Agreement Is Attacked By Admirals

Places Their Navy In Interior Position Says U.S. Officers

Washington, D.C.—Two more admirals told senate committees that the London naval treaty would leave the United States in a position of inferiority.

Rear Admiral J. V. Chase, of the General Board, said the pact did not represent parity with Great Britain, and had many other flaws from the viewpoint of a navy man.

Although he was an adviser at the London conference, Rear Admiral J. R. P. Fringle said, he was consulted but once by the United States delegation. He advised the delegates against the cruiser arrangement they finally accepted.

## HOUSE UNITED IN ENDORSING PENSIONS BILL

Ottawa, Ont.—The government and the opposition united in expressing appreciation for the work of the parliamentary committee on pensions, when the bill to amend the pensions act was before the House of Commons in committee. The bill is to give legislative effect to the recommendations of the pensions committee decided upon after a lengthy squaring of the claims of organizations of returned men for more generous treatment. The bill passed the committee stage quickly, and was then given third reading. It now goes to the senate.

When he arose to explain the bill Hon. Dr. J. H. King, Minister of Pensions and National Health, praised the work of the committee. He felt that not only would the returned men, but all the people of Canada, be pleased with the work which had been accomplished and highly appreciative of the untiring efforts of the members of the committee. The report of the committee had been unanimous.

The bill revises the machinery for dealing with appeals of soldiers from the pensions board. It provides a veterans' bureau to prepare the cases for soldiers. An important change gives a veteran the advantage when there is a reasonable doubt as to whether his incapacity was due to war service.

Congratulating the committee on the patient consideration and expert knowledge brought to this important question, Hon. R. B. Bennett said its members were entitled to the thanks of the nation. The committee was composed of men with first hand experience of soldiers' problems. He especially praised the chairman, C. G. Power (Liberal, Quebec South).

No difference of opinion existed among Canadian people, the conservative leader declared, as to the pensions problem. They wanted a measure of generous compensation to all those who had risked their lives for this country. It assured the returned man the country was behind him, said Mr. Bennett.

There was nothing partisan in the bill or in the methods by which the committee had worked.

## Jolly Beggars Broadcast Joy

"The most truly poetical of all Burns poems," said Thomas Carlyle, "is one which does not appear in Prior's edition, but has been often printed before and since, under the humble title of 'The Jolly Beggars.'"

With music revised, arranged and orchestrated from the edition of 1918, the program, J. Campbell McInnes as "the Narrator" (Robert Burns), Finlay Campbell as "A Maimed Soldier," John Dettwiler as "A Tinker," Mrs. Davies Wynne as "The Widow Nannie," Alfred Heather as "A Bard and Ballad Singer," and Jean Hagel as "The Soldier's Lass." The first song of this opera is of special interest as containing a reference to Canada. "When the bloody die on the Heights of Abraham," refers to the battle between Wolfe and Montcalm.

#### NEW POET LAUREATE

John Macfie, some time sailor and vagabond, who has been appointed poet laureate of England. The poems, "Dauber" and "The Everlasting Mercy," and novel "Sard Harker" are among his better known works.

### Wants Public Represented

People Interested In Veterans' Allowance Act Says Major-General MacDonnell

Ottawa, Ont.—Criticism of the plan to appoint the commission to administer the War Veterans' Allowance Act wholly of returned men was made by Major-General A. H. MacDonnell, a member of the Senate committee investigating the bill. Dr. J. A. Amoyt, Deputy Minister of the Department of Pensions, informed the committee it was the intention to appoint veterans to the committee. General MacDonnell did not contend that returned men could not fill the offices, but he believed the general public should be represented as well. County judges could be utilized, he suggested, and they would bring to the committee experience that the majority of returned soldiers lacked.

### Change Will Assist Trade

Canadian Tariff Gives Many Advantages To British Manufacturer

London, England.—Hon. W. R. Smith, parliamentary secretary to the Board of Trade, said in the House of Commons, the changes in the Canadian tariff would affect business operations in a great many sections of the export trade of Britain. Every effort was being made to assist manufacturers and traders to take advantage of their new opportunities, he said. While the department of overseas trade believed no practical purpose could be served by such a conference it would be glad to adopt the proposals of particular groups if they felt that consultation would be useful, he concluded.

#### Japanese Immigration

Ottawa, Ont.—Two hundred and thirty-four Japanese immigrants have been admitted to Canada since September 1, 1928, up to the end of the last fiscal year, according to a return tabled in the House of Commons. Of these 130 were males, and the balance females. Fifty-eight were agricultural workers, and 56 were domestics. The remainder were children. Only 50 Japanese are permitted to enter Canada annually.

### Considering Reverse "Rhodes Scholarships"

Would Permit English Boys To Attend Canadian Universities

Toronto, Ont.—Sir Robert Falconer, president of the University of Toronto, announced the establishment of a reverse "Rhodes Scholarship" is being considered by a committee of educationalists to permit English boys to attend Canadian universities.

Dr. Cyril Norwood, chairman of the party of English schoolmasters which recently visited Canada, strongly advocated such an exchange of students, stressing his wish to see English boys specialize in economics and commerce. In praising the idea, Chancellor H. P. Whidden, of McMaster University, said, "I consider the point by Dr. Norwood, that Canada offers opportunities in the scientific and economic fields is well taken. One would hardly expect English students to study classics here when such excellent facilities are offered at Oxford."

Gen. C. H. Mitchell, dean of the faculty of applied science of the University of Toronto, termed the scheme of "Reverse Scholarships" practical and feasible.

### Conciliation Board To Settle Dispute

Dockers At Vancouver Wish Alterations In Renewal Agreement

Ottawa, Ont.—A labor dispute involving 1,100 water front workers in Vancouver and district is to be settled by a board of conciliation under the Industrial Disputes Investigation Act. Hon. Peter C. Heenan, Minister of Labor, announced. The parties involved are the Shipping Federation of British Columbia and some of their employees who are members of the Vancouver and District Waterfront Workers' Association of the convention.

The men wish the renewal of the agreement with the employers covering wages and working conditions which expired November 30, 1929. With certain alterations, "Two members of the board of conciliation have already been appointed: R. E. Pirie, of Vancouver, on the recommendation of the employees, and J. E. Hall, on the recommendation of the employers."

Mr. Heenan is awaiting word from the two board members as to the selection of a third member who will act as chairman.

## NEW TARIFF ON FRUITS IS TO BE AMENDED

Ottawa, Ont.—Amendments will be introduced to a number of items in the tariff resolutions affecting fruit and vegetables. Hon. C. A. Dunning, Minister of Finance, announced in the House of Commons. The changes will apply to products which under the new schedule have no ad valorem as well as specific duties. The specific will be made to apply only in those seasons of the year in which foreign importations come in competition with Canadian grown fruit and vegetables.

The announcement of the finance minister was greeted with applause by the Conservatives who expressed the opinion that he had become a convert to the seasonal tariffs they had been advocating.

When the uproar had quieted, Mr. Dunning explained that the decision to limit the specific duties to certain seasons instead of the entire year had come as a result of conferences with the fruit and vegetable growers. They had expressed willingness to co-operate in this connection. He could not promise that the seasons would suit all the growers from the Atlantic to the Pacific because of the many differences as to the dates when such products are marketed here, but an attempt had been made to deal as fairly as possible with all.

The House spent the entire day on budget resolutions, and some progress was recorded. The tea item, as amended by the budget, was finally approved. Under this item tea produced in the British Empire enters Canada free under the British preference, and is subject to duty of nine cents, intermediate, and ten cents, general.

Approval was also given to the resolution which declared that excise duties or taxes shall be disregarded in estimating the market value of goods for special duty, when these commodities come under the British preference, or intermediate tariff. The resolution passed, however, only after protest by certain Conservative members that the Canadian silk industry would suffer through the admission of Japanese silks.

## BILL ON LIQUOR CLEARANCES TO STATES PASSED

Ottawa, Ont.—Without a recorded vote, the senate gave third reading to the government bill prohibiting the clearance of liquor to the United States. An amendment, moved by Hon. Rufus Pope, to the effect that the bill should not come into effect until proclaimed by the governor-in-council, was voted down by a majority of 29 votes. The vote was registered: for 10, against 39.

Although several senators spoke against the bill, there was no registered vote on the main motion. A clerical error, the substitution of the word "exportation," was corrected in amendment, and thus the bill will be referred back to the commons before becoming law.

Sir George Foster, for years one of Canada's chief temperance workers, was one of the bill's champions. He believed the people of the United States, through the imposition of the 18th amendment, had expressed their will against alcohol. It followed that Canada's only proper attitude was to prohibit the flow of liquor into that country.

In favoring the bill he said the principles upon which it was based were sound both the report of the parliamentary committee investigating the customs department in 1928, and in the report of the royal commission which extended the probe. Criticism, he said, should be made of Hon. Peter C. Heenan, Minister of Finance, for the purpose of implementing the contents of the two reports sooner, but this would not debar him from supporting the measure now that it had been prepared.

It would be practically impossible to clear liquor from Cuba to United States, because of the convention between those countries, he said. Therefore, he did not believe in the contention that the bill would divert the flow of liquor to Cuba; it might be possible, he admitted, for distillers to subvert the purpose of the prohibition by diverting the export of liquor to St. Pierre and Miquelon.

Senator Daniels announced he would support both the bill and the amendment.

Senator Beise reiterated what he said during an earlier debate on the measure, that the passing of the bill would mean a loss of revenue to Canada. However, the country had a duty to perform. It must shoulder the burden of the prohibition and perform its international duty of goodwill.

### New Minister To Canada

Hanford MacNider Is Chosen For Position At Ottawa

Washington.—Lieut. Col. Hanford MacNider, of Mason City, Iowa, is the United States minister to Ottawa.

President Hoover has chosen and the Canadian Government has approved a distinguished soldier and financier to fill the post vacated by Hon. William S. Phillips. Colonel MacNider is a Harvard man, former assistant secretary of war and former commander of the American Legion. He is 41 years of age.

He entered the Coolidge administration as assistant secretary of war in October, 1925, serving until May, 1928.

Colonel MacNider's career as a business man and financier has been eminently successful. He is president of the First National Investment Company, of Mason City; vice-president of the First National Bank, treasurer of North Western States Portland Cement Company.

### Radio Stations For North

Two Will Be Added To Network Linking Up Arctic With Rest Of Canada

Ottawa, Ont.—Involving an expenditure of approximately \$67,000, two low power radio stations are to be established by the Dominion Government in the far north, one at Coppermine, on the Arctic Gulf, and the other at Chesterfield Inlet.

These additions to the network stations linking up the Arctic with the rest of Canada have already been approved by order-in-council and the work of installation is to be carried out immediately by the Department of Marine and Fisheries.

Decision to establish the Coppermine station is timely in view of the influx of prospectors which is anticipated this winter. Both stations are to furnish meteorological reports which will have an important bearing on the successful navigability of the Hudson Bay route.

Small gliders are being offered in England at \$200 each.

# Canadians Have Much To Learn About Vast Empire Being Developed In North

So vast is the Canadian heritage and so numerous are the points of development, that it is difficult for the most assiduous of newspaper readers to keep in touch even with his own province. For more distant information he is dependent on re-mot sources and therefore has all the more reason to appreciate editorial and other articles outlining what is being done in districts that are only in process of being opened to the light of day. Recently the Lethbridge Herald touched on the development of the Alberta Northland and remarked that as this is proceeding so British Columbia's great block of land east of the Rockies is coming in for a lot of attention. Speaking recently about the potentialities of this region it quoted Hon. F. P. Burden, Minister of Lands of that province, as saying that the section had one of the best bodies of coal on the continent, and according to coal authorities it was the only coal on the continent that would smelt without coking.

In close proximity, Mr. Burden said, was a great body of iron ore. In years to come, he believed, a great steel and iron industry would be developed and would create a big demand for the agricultural products of the district.

There were also other minerals, the minister said, and possible hydro-development at low cost.

The Herald repeats its view previously expressed that in the vicinity of the head waters of the Peace River, and where they cut through the backbone of the continent on their way to the Arctic, there is a veritable empire of wealth such as few Canadians even dream of. There are to be found valuable commercial timber and pulpwood. The Groundhog coalfields in which the late Lord Rhonda was interested lie in that area. Close by there are said to be mountains of iron, while it is also stated that mines as rich as the Sullivan at Kimberley may be developed. And with it all there is, in the Peace River Canyon, water power capable of developing within a 12-mile stretch something like 1,500,000 horsepower.

While there is so much talk of a coast outlet for the Peace River country, it is well to bear in mind that the development of the mining, lumbering, pulpwood and hydro power potentialities along the Peace River head waters, is practically certain to open up a route through the northern section of British Columbia. Somewhere along the course of that route will be a railway, and situated upon it, close to the Pacific, and closer to the Orient than any other British Columbia city, will be a modern city founded upon the wealth of resources in that area.

We really know very little as yet, the Herald says truly, about the great northland which, in a few years, will be pouring its treasure into the world's markets and bringing back new wealth to Western Canada.

## Settlers Are Keeping Ahead Of Railways

District In Northern Saskatchewan Rapidly Filling Up

Settlers are still keeping far in advance of the railway in the opening of the north.

For the past 10 or 12 years good crops have been grown in the Meadow Lake area but Meadow Lake is no longer the frontier town.

Every week hay-racks containing settlers' effects are to be seen ferrying the Beaver River, 20 miles north, making for a district on the other side which is rapidly filling up.

Sho: "I am so glad to meet somebody! There shall I find a half-breed?"—Lustige Schaele, Leipzig.

## Britain Acclaims Canadian Wheat

Sir James Dunn Says Manitoba Product Makes Best Bread

All who are interested in Empire Free Trade should make it their duty to demand an "Empire Loaf"—made of wheat flour produced in the British Empire—and popularize it among their friends, says Sir James Dunn, in a letter to the London Evening Standard.

Sir James, a native of Bathurst, New Brunswick, and now a prominent lawyer and husband of the Marchioness of Queensbury, says that apart from any question of imperial sentiment, the Empire loaf consisting of 85 per cent. Manitoba wheat, is the best bread in the world. His own researches into the relative nutritive values of Canadian and competitive wheats have shown the Manitoba wheat produces a bigger and lighter loaf, which gives greater nourishment than bread made from any other flour, he says.

## Rice Growers To Compete

British Guiana May Have Exhibit At World Grain Show

In all probability rice growers from British Guiana will be represented in the competitive classes of the World's Grain Show, according to a letter received at the exhibition office, Regina, from J. Sydney Dash, director of the Department of Agriculture, Georgetown, British Guiana.

The compilers of the prize list for the 1932 World's Grain Exhibition designed to make it as attractive as possible to the growers of all countries. For this reason, apart from the fact that the cash awards offered are higher than have been offered ever before, the classification embraces practically all of the grain and seed crops cultivated the world over.

The rice growers of British Guiana, one of the smaller parts of the British Empire located in the tropical region of northern South America, are showing a keen interest, and according to word received at the World Grain Show office from Mr. Dash, exhibits of rice may be expected from that country. In his letter Mr. Dash says that he hopes "this colony will be able to take part in your exhibition and conference to be held in 1932. I shall advertise it so that rice growers may have the opportunity to participate."

## For Healthy Poultry

Clean Soil In Run Necessary For Growing Chickens

Clean soil in the run is the one sure cure and preventative for the most destructive poultry disease, intestinal parasitism, asserts the Poultry Clubman of the Dominion Department of Agriculture. And practicing what he preaches, the poultry runs at the Central Experimental Farm have been freshly ploughed and the rotation system of soil cleaning is under way on the runs used last year. A succession of hoed, grain and green crops is used to remove all possible infection from intestinal parasites. Poultry should always be kept on clean soil, especially growing chicks, and crop rotation on the poultry run is the one most effective way of enabling nature to do the trick.

## Increase In Plant Imports

Canada Bringing In Large Number For Parks and Gardens

Canada's appreciation for the aesthetic in parks, garden and amateur horticulture is reflected in the amazing increase which is reported in the importations of trees, shrubs, roots, perennials and bulbs. In 1919 the Plant Inspection Service of the Dominion Department of Agriculture examined 900,000 plants, etc., at ports of entry, while in 1929 the number examined was over 48,000,000. Inspection stations are maintained at Halifax, St. John, Quebec City, Montreal, Ottawa, Toronto, Niagara Falls, Windsor, Winnipeg, Estevan and Vancouver, where imported plants are examined to ensure freedom from insect pests and plant diseases.

## Curious Custom In Ceylon

At a funeral recently of a native near Colombo, Ceylon, friends brought many gifts to the corpse. Each had something different including cooked meat, fruits and liquors. As the coffin was conveyed to the burial place on a huge pink and white structure resembling an laced cake, the gift-bearers accompanied it in solemn procession.

## High-Class Poultry and Eggs

Believe it or not this picture represents \$700 worth of high class poultry and henfruit. Not many of them, it is true, but these hens are worth about \$50 apiece while the three roosters retail at the market price of \$100 each. The shipment is part of a big order being filled by the Record of Production breeders in co-operation with the University of British Columbia for poultrymen in the Hawaiian Islands, China and Japan. Each hen in the shipment has a record of more than 300 eggs per year, while the roosters also have imposing records. The shipment left Vancouver recently aboard the Canadian Pacific liner "Empress of Canada," for Honolulu.

R. S. McLAUGHLIN

President of General Motors of Canada, Limited, and one of the outstanding industrial figures of the Dominion, who was added to the board of directors of the Canadian Pacific Railway Company at the annual meeting of shareholders held early in May, Mr. McLaughlin is also vice-president of the General Motors Corporation of the United States.

## University Is Loser

Alberta Regrets Removal Of Professor A. L. Burt To Minnesota

Anyone who went through the classrooms of Professor A. L. Burt, of the University of Alberta, or heard him speak in public, will regret to hear that he is going to the University of Minnesota. For seventeen years, except for a period of war service, Dr. Burt has been at Alberta. He graduated from Toronto, and was a Rhodes scholar. Paying tribute to him, Dr. R. C. Wallace, president of the University, said: "He has established his position in a very notable way with the students of history in the University, and his books and other contributions to the field of history have given him a place in the world of accurate scholarship." Prof. Burt's "The Romance of Western Canada" was published this year.

## Government Farms Are Busy

Extensive Research Carried Out By Dominion Department Of Agriculture

An appreciation of the range and extent of applied agricultural research carried out by the Experimental farms and stations of the Dominion Department of Agriculture throughout Canada is afforded by the report of the Director, Dr. E. S. Archibald. At the time the report was prepared there were 2,453 active experimental projects in operation, ranging in application from "Agrostology" to "Tobacco." Horticulture heads the list with a total of 641 active experimental projects; then in order come, animal husbandry, 421; botany, 285; field husbandry, 282; poultry husbandry, 188; agronomy, 149; cereals, 124; chemistry, 106; illustration stations, 76; tobacco, 69; bees, 63, and pathology, 25.

## A Misunderstanding

"Surely, John, you haven't brought any one home to dinner?"

"Sure I have. Haven't you got anything for them?"

"Why, no, you told me you'd bring home a couple of lobsters for dinner."

"So I have. They're waiting in the parlor."

# Department of Agriculture Is Studying Problems of The Ranching Industry

The following article was prepared at the direction of Dr. J. H. Cristdale, Deputy Minister of Agriculture, by Mr. E. S. Archibald, director, Dominion Experimental Farms, Ottawa.

Previous to 1912, when the beef cattle industry in Canada was in a thriving condition, a very small investment, outside of that in cattle, was necessary to carry on the business. With the coming of the settler, and the consequent splitting up of the open range, the rancher was confined to a definite area. This change necessitated a more economical use of the range and the construction of fences, the development of watering places, and the production of winter feed. With these increased costs more attention was paid to the class of cattle raised, the percentage calf crop, and the death losses. Although the best known grazing practices were followed there was a decline in the carrying capacity of the ranges, and many areas became badly overgrazed. The result was depleted pastures, less thrifty cattle entering the winter, and sub-normal gains in weight by marketable and breeding cattle.

It was not until 1925 that a demand arose for experimental work on the range, and following a survey in 1926, by the Dominion Experimental Farms, Department of Agriculture, it was decided to conduct experiments on the short grass plains to study methods of range management, with the object of improving the carrying capacity. As the outright purchase and equipping of an experimental ranch appeared to be unwise because of the large cost involved, it was decided that it would be more economical and more useful to co-operate with some rancher who had a long experience in ranching. Gilchrist Brothers, of Medicine Hat, Alberta, offered their co-operation, which was accepted and the experiments are now being carried out on this ranch.

The main project under investigation is known as the deferred and rotation system of grazing. It is usually carried out on three pastures, depending upon the conditions under which it is practiced. The system is designed to defer grazing on each pasture twice in six years to allow each pasture to mature a crop of grass. On the station, four fields, each comprising 3,740 acres, are used to determine the practicability of the system. The fourth field is grazed continuously and serves as a check on the other fields. In order to determine the efficiency of this system of grazing as a whole and whether or not the grass cover is improved, a thorough study of all factors affecting it is made.

An essential factor in range management is a reliable water supply. In this connection the development of natural watering facilities is being investigated. Other factors in range management being studied include the use of salt, the value in weight by different classes of cattle, the possible limits of the grazing periods, the palatability and nutritive value of the range vegetation, the question of deterioration in the feeding value of hay kept several years in reserve, and the effect of frequent cutting on range hay production. As fencing occupies an important place in the ranch operations, the use of wood preservatives for the posts and cost of construction and maintenance are also being investigated.

In addition to the projects at the range station there are several other investigations being conducted in Alberta, Saskatchewan, and British Columbia, including an economic study of the vegetation, reseeding tests on burnt-over land, and a number of trials in the growing of forage crops for winter feeding. A beginning has been made on the study of the cost of production of range cattle in the different grazing areas, the object being, first, to learn the financial importance of different factors in the cattle business; secondly, to present a fair picture of the industry, and thirdly, to analyze the business for the purpose of learning which are the most profitable range practices to follow in the different locations.

New projects to be studied during 1930 will be the determination of the carrying capacity of the range land on the short grass plains, the winter feeding of cattle, the use of home-grown roughage, and their economic value for hastening younger steers to maturity, and the value of supplemental feeding to cows on winter pastures.

When more complete information is available on summer grazing, winter feeding, and on cost of production, a fairly complete knowledge of

all phases of the cattle industry will be available.

## Might Increase Apple Sales

Vending Machine Opens New Market For Canadian Product

One of the most interesting and important developments in connection with the marketing of apples in recent years is the automatic vending machine. Officials of the Fruit Branch of the Dominion Department of Agriculture are watching this development with special interest at the present time, have been tried out with surprisingly satisfactory results on a number of occasions. At the Royal Winter Fair, Toronto, last year, several of these machines were in operation and the sales for each machine ranged from 3,000 to 7,000 apples per day.

The automatic apple vendor is a "nickel-in-the-slot" contrivance by which the customer may select the apple he prefers from a range of size, variety and color. Both the wall and cylinder type machine carry the apples in trays with glass tops so that they are enticingly visible. The apples are kept in perfect condition through the use of dry ice, and the automatic vendor provides the individual an opportunity to get "an apple a day," or, what is more important, an apple when it is wanted.

An idea of the potential sales value of these machines in operation is afforded by the experience at the Royal Winter Fair. The machines there in the week they were in operation averaged sales of 2,500 boxes of fancy fruit of an average size of 125 apples to the box; at 5c. apiece this meant \$6.25 a box or well over \$15,000 from the machine sales during the period of the Fair.

British Columbia has taken the lead in the introduction of the sale of apples by this type of appliance; one hundred machines being now in operation in the City of Vancouver and fifty being installed in Victoria.

## Sweden Is Prosperous

Has Small Population But Is Very Progressive

Sweden, which has a population less than that of London, is one of the most prosperous of European countries. Though only a third of the small population lives in towns, Sweden is remarkably go-ahead in all matters of art—the drama, architecture, and so on. The Town Hall of Stockholm is one of the finest modern buildings in the world. There was a time when Sweden made a great stir in the affairs of Europe, when, united in national resistance to the encroachment of her neighbors, she waged war on Germany, Russia and Poland; her standards were raised in Munich, Moscow and Warsaw. These were the days of Gustavus Adolphus, Charles XII, and eccentric Queen Christina, who dressed as a man and died a pauper in Rome. Today things are otherwise. The country has a great past and a most contented present—which is the best we would desire for any nation.

Woman claims equal rights with man in Japan as a pearl diver. Before the Jap girl is 15 she knows all about diving and is used to bringing up oysters from depths of more than 25 fathoms.

Jinks—"Have you ever lost your temper before your wife?"

Binks—"Now, she beats me to it every time."

"It is the master! But where is his car?"

"Did he have his car with him?"

"We wondered why he kept asking us to leave the window as he dragged him home."—Flegende Blaetter, Munich

We Pay Your Grocer the  
Drop in the Price of

# RED ROSE TEA

We Bear the Loss

So you can now buy from your grocer, at the reduced prices, the Red Rose Tea he has in stock, regardless of the prices that may be on the packages.

Everyone who uses Red Rose Tea is guaranteed at all times the best value that tea can be.

And every merchant who sells it is guaranteed a fair profit regardless of markets or tariff changes.

CHAPTER XIV.—Continued

A year before there had been talk of building a main schoolhouse in the center of the town; but the plan had been abandoned because so many of the children came from farms outside the village that it would have been necessary to send a bus to collect them, and the old way seemed easier. Thus Charman began her duties as teacher in the very room where she began her school days nineteen years before. The small, brick building was unchanged save for an impressive sign over the door which read, "Lincoln School." This replaced the battered, weatherworn board that had designated "District Four," and was a concession to the daring souls who declared that district schools had "gone out of fashion," and that Wickfield would be a laughing-stock to the entire country unless some change in its educational system was made.

"You'd think he read 'em talk," raged Deacon Purdie, who always flared into speech at any mention of spending money, either by the town, himself, or one of his neighbors. "That we folks that went to the old school ain't educated! I guess what was good enough for us is good enough for the smart Alecks that folks is raisin' these days. I caught that Eldridge boy makin' a—a disgraceful—er—gesture at me the other day!"

"If he'd caught all the people who would enjoy doing the same thing," grinned Jimmy Bennett when Grandma related this piece of gossip, they'd reach from here to the district school that he's so keen about! The darned old hypocrite!"

But this time the deacon's faction had triumphed.

"If it hadn't," said Grandma regretfully when Charman told her that the coveted "job" was landed, "it would be a sight easier for you, child. You'll have to start the coldest part of the day to walk that distance. It makes me shiver just to think about it. I wish Ed Purdie had to walk it for you. He'd soon change his mind about whether young folks deserve a better school building!"

"Now don't begin worrying about next winter," laughed Charman. "I dare say the exercise will do me good. I don't get half enough as it is now."

It was the first of August when Charman was notified of her appointment. Other events followed quickly on its heels, the most aston-

ishing of all being the Sunday morning when Deacon Purdie surprised congregation by walking proudly into church followed by the blushing Luella (wearing the much-talked-of yellow beads) and her six little olive branches.

"I feel sort of responsible, chuckled Gam Gaffield, who had stopped in after divine worship to talk the matter over with Grandma Davis. "I laid it on so thick about the cost of setting the thing by law, that I guess Edger—decided it would be cheaper to get hitched. Anyway, they went over to Eastboro yesterday afternoon and tied the knot! I haven't heard what bribe he used to make Luella change her mind, but she was smirking enough this morning to please any one."

"He might at least have given the wedding fee to Mr. Merry," complained Grandma. "Why that was the idea of going clear to Eastboro?"

"Search me!" replied the little lawyer, throwing out his hands in an expressive gesture. "Maybe luck. Mr. Merry performed the last two ceremonies, and the brides up and died on him, as Linn Baker says. Any way, Grandma, that lets you out of any trouble. Now that he's nothing to gain by it the deacon will never let it be known that you got the better of him in a deal."

Grandma laughed as she glanced from the window.

"Here they come now!" she exclaimed excitedly. "They must have gone to meeting the long way 'round, for I've been here every minute since breakfast and never laid eyes on 'em before. It looks sort of like a bridal procession, Gam, with all those children dear attendants. My star! I should think even Luella Moore (and she's a fool if ever there was one), would know better than to give her babies such a stepfather. I pity the poor little things; but I suppose their mother is counting on Edger's joining his other wives in Kingdom Come, seeing he's so much older, and then she'll come into the Purdie property. Just look at how Edger struts! He did the same when he married Emma Dodd, but with Carrie and Eva he was sort of drooping, they not being so handsome as his first. I don't suppose you know if Luella got on a new dress, Gamalie?"

The lawyer shook his head. "That's beyond me; but here comes Charman and the doctor. Perhaps they can supply the missing details."

He arose as the girl and her companion entered, and said triumphantly: "I beat you to it, Charman! Skipped out as soon as I decently could and made a home run with the news. We've just been watching the bridal party from the window."

"Doesn't it beat all?" cried Grandma. "Did Luella have on a new dress, dearie? It looked to me like her old blue made over."

"I can't say," laughed Charman. "I was far too thrilled watching the bridegroom to have any eyes left for Luella's raiment. The children spilled over into the Merry's pew, Grandma, but they behaved well."

"I saw their new paws give one of 'em a dirty look when she slipped a hymn book," proclaimed another arrival who proved to be Jim Bennett.

"I got that, too," declared John Carter. "I wonder if any one in church can remember the text," he added with a quiet laugh. "The center of attraction was certainly not the minister."

"Well," said the old lady, "I've no doubt that Mr. Merry understood and made allowances. Probably he had considerable trouble keeping his own mind on the sermon. Mr. Merry is real human if he is a minister. Did you know if Luella had a new dress, Jimmy? I'd admire to find out."

"Mother said it was an olive one, fixed up," replied Jim glibly. "Guess Edger sprang the ceremony on his love so suddenly (considering their recent quarrel), that she didn't have time to visit her modiste."

Charman giggled while the doctor reproved her by saying: "I'm shocked at your levity, Miss Davis. This is a serious matter—to Luella."

"I'll say it is!" said Jim; and added, with a glance at the lawyer, "and it's cost you a good case, Gam. I'm surprised you should let such an opportunity slip through your fingers."

"It was a sacrifice on my part," replied Gamalie, sighing. "I did it, Jim, to save an old friend from getting into trouble."

"He's joking," nodded the old lady, "but there's a slight o' truth behind the joke. You'll get your reward in the next world, Gam, if you don't here. He's referring to a business transaction I had with the deacon, Jimmy," she explained. "I presume Charman told you about it at the time."

"She did," grinned Jim. "My sole regret is that I wasn't behind the door with these precious eaves-droppers."

"Same here," asserted the lawyer, rising. "I'd have given ten dollars for the privilege of a front seat. Well, Grandma, I must run along or be late to dinner. All's well that ends well, and so long as Luella thinks she's adorning her beauty with some costly product of the Orient, why no harm's done. You going my way, Jim? I'll give you a lift."

"You're a dandy matchmaker, Grandma," remarked John Carter, as the callers departed and he took the chair beside her. "Matchmaker!" echoed Grandma indignantly. "If I thought I'd had anything to do with giving those Moore children such a mean stepfather, I'd never rest easy in my grave. They goes George K. and Selina. They're waving. A nice couple if ever there was one, and successful, too. Selina can wear a silk dress every day if she wants to; but when they were married George K. was just beginning at the bank and earning less'n ten dollars a week. Now he's president, and his three boys all went to college and are a credit to him and their mother. One of 'em writes poetry, and gets it printed in the magazines. I've always thought that if Charman had the last time she could be a writer. Once she wrote a real pretty piece about—"

"Grandma Davis!" reproved Charman from the doorway. "I forbid you to boast about my youthful literary efforts. The subject is painful, and I haven't a doubt that the doctor would better ones himself in his early days."

"I can't vouch for comparisons," smiled the doctor, "but in my twelfth year I produced a masterpiece that caused a riot in the family. It began: 'The sun was setting over the battlements. It shone on ladies and on gents. . . .'"

"It was a ballad, dealing with love and covering six pages. My mother treasured it for years."

"Do Not Hesitate to Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for the good they do me that I have told several women about it."

"Mrs. G. W. Postill, 263 Huron St., Stratford, Ontario."

"Of course she did," said Grandma seriously, though her lips twitched. "Don't giggle so, Charman. You'll hurt the doctor's feelings. Is dinner ready? I feel hungry after so much excitement; and I presume Lizzie Baker'll be over soon as she eats."

(To Be Continued.)

## THE REASON WHY

Thin Weak Children Need  
Baby's Own Tablets

Malnutrition or inability to derive nourishment from food is a common trouble with little children and is entirely due to stomach and bowel weakness. Another cause of loss of flesh and sleep is worms.

To correct stomach and bowel troubles and thus banish constipation and indigestion, bring up colds and simple fevers; expel worms and allay the pain which accompanies the cutting of teeth is what Baby's Own Tablets were designed for. They never fail to be of aid and can be given with safety to the youngest babe.

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## May Improve Radio Reception

Magnetic Observations Are To Be Taken In Polar Areas

Better weather forecasts and radio reception may result from a year's international study of magnetic meteorological observations in the polar areas, Captain H. U. Sverdrup, noted Norwegian explorer, said.

Simultaneous observations near both poles in 1932-33 will gather magnetic auroal and meteorological observations through a network of stations in the Arctic and Antarctic. The International Committee of Meteorological Directors expects the increased knowledge gained to be of practical application to problems connected with terrestrial magnetism, and thus, aerial navigation, wireless telegraphy and weather forecasting.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms exist, and at the same time, they are sublethal and drive them from the system by their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

## Innovations On Ocean Liner

People Crossing Atlantic Have More Than Home Comforts

Among other innovations upon a new 45,000-ton liner that is being built in Italy we are promised a theatre. Already there are ships with garages, swimming baths, telephones, cabarets and the like, so that very soon passengers who make the Atlantic crossing will hardly realize that they are at sea.

If some of the old shellbacks who manned the famous tea clippers a century ago could return their comments upon these floating palaces would be amusing, and probably not very complimentary. There are still a number of people who enjoy the freshness and freedom from land worries that are the delights of a sea voyage, and they will be thankful that there are still many ships that are comfortable without being too reminiscent of life ashore.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded on the hearts of thousands who have known its benefit.

River Being Moved Because the Trinity River at Dallas, Texas, was restricting the growth of the city, it is being moved two and one-half miles and placed in a man-made channel. Twenty-five miles of embankment, 30 feet high and 154 feet thick at the base, will imprison the stream when the task is finished.

The Moscow government has approved a change in the calendar and time hereafter will be dated from November 7, 1917, the date of the Bolshevik revolution.

## Propose World Trip In Sailing Vessel

Would Take About Eighteen Months and Make Real Holiday Business men in quest of a thorough holiday, who can enjoy an ocean voyage on an old fashioned sailing ship, have an opportunity of an unique trip if they accept an invitation which was reported to the Montreal Board of Trade at its council meeting recently.

The council was advised of a proposed round-the-world trip in a square rigged sailing vessel of about 3,500 tons gross registry, sailing from New York on or about September 15 next. The trip will take about eighteen months and stops will be made at practically all the principal ocean ports of the world. While the vessel is equipped with auxiliary engines, it is expected that these will be very little used and that as nearly as possible the voyage will conform to the conditions prevailing in the old sailing days. The ship will be manned by a capable captain and a large crew, and excellent passenger accommodation will be provided. As the accommodation is limited, only about fifteen couples will be taken as passengers.

## Little Helps For This Week

"Commit thy works unto the Lord, and the way shall be straightened."—Proverbs xvi. 3.

When first thy eyes unveil, give thy soul leave To do the like; our bodies but fore-run Their spirit's duty. True hearts spread and leave Us their god as thoughts do; so Give Him thy first thoughts then; so shall thou keep Him company all day, and in Him sleep.

—Henry Vaughan.

Every morning before we cross our threshold, before we make a single plan or appointment for the day, we must give ourselves unto our Father's business. We are not, as we sometimes do, to determine what we will do, but we first devote it to God, but we are first to devote ourselves to God, and ask Him what we shall do.—Alexander McKenzie.

## Man Without a Country

Sam Holovith, Russian, who fought for Canada in the Great War, is officially a "man without a country." Though an alien, he is permitted his liberty, for U.S. federal immigration laws have tried twice in vain to find a land to which they could deport him.

Most of the street accidents in England are among people between 15 and 25 years old.

Turkey is conducting a campaign against juvenile gambling.

## London's Moving Stairways Will Be Speeded Up To 150 Feet a Minute

The moving stairways connected with London's famous underground railways are to be speeded up. At present this speed is 90 feet per minute. Experiments are being made with a stairway travelling at 150 feet a minute. Rapid passengers who slip on and off the escalators with agility, would be glad to have them go faster, but the many who still regard them as perilous innovations will be more inclined than they are now to use the omnibuses.

## "After Baby Came I Was Weak, Skinny Gained 22 Lbs."

"After baby was born I was very weak, skinny. Since taking Ironized Yeast I feel fine. Gained 22 lbs." Mrs. Laura Benoit.

Thousands write new testifies to the fact that in 3 weeks. Ugly hollows fill out. Bony limbs get graceful roundness. Muddy skin gets clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from very first day.

Two great tonics in one—special weight-building. Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmediated yeast. Results in 1/4 time. No nasty taste, no gas.

So quit being "skinny," tired, unattractive. Get Ironized Yeast from druggists today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

Esperanto, the international language, is built up from the roots of 900 words, chiefly of Latin origin.

## Personal and Local

Tuesday night a shower was held at Mrs. J. Richards in honor of Mrs. Hoffman, and many nice presents were brought by her friends.

J. McLeod and Mr. and Mrs. Geo. Pattinson were among those from the Pass who attended the golf meet at Lethbridge over the week-end.

Penelope McDonald, daughter of Mr. and Mrs. J. A. McDonald of the Empire hotel is recovering nicely following an operation for appendicitis.

A number from Coleman attended the sports on Victoria Day at Cowley, which proved very enjoyable, and at which quite a number of Indians from the Peigan reserve took part.

Mr. and Mrs. J. Emmerson and children motored to Calgary for the holiday to visit their daughter Joy, who is a student at Mount Royal college.

Brigadier-General Ormond, C.M.G., D.S.O., D.O.C., M.D. 13, accompanied by his wife, paid a brief visit to Major R. F. Barnes on Sunday. They were making the circle tour from Calgary to Banff.

Disappointment among theatre goers was felt when the announcement was made that the Palace Theatre would close indefinitely. Mr. Dow, proprietor, stated that film rentals are so high in comparison with the receipts that it was impossible to carry on under existing conditions.

### IN MEMORIAM

In Loving Memory of our dear daughter Gladys, who was "called away" on May 26, 1929, at Lundbreck Falls.

The sun comes out as usual, a little after dawn,  
But to us it's lost its radiance, as our darling we do mourn;  
We see the pretty blossoms grow and raise their heads so high,  
But we ne'er see one that's near so pretty, as our flower now in the sky.

We again see the day we laid her away at rest upon the hill,  
And think, oh, for the touch of a vanished hand  
And the sound of a voice that is still.  
—Dearly remembered by her Father, Mother, Geoff, Violet, Grandma and Grandpa Clapham.

In Loving Memory of my dear cousin, Gladys, who was "called away" on May 26, 1929, at Lundbreck Falls.

Only to see her face once more,  
Only to hear her voice.  
—Dearly remembered by her cousin, Gwennie, and Grandma Ahleson.

In Loving Memory of our dear husband and daddy, William Wilson, who was killed at the International mine on May 28, 1929.  
Our loss was great, we'll not complain;  
But hope to meet him in heaven again:  
—Ever remembered by his loving wife and daughters.

In memory of our son and brother, William Wilson.  
He is gone, but not forgotten,  
Never will his memory fade;  
Sweetest thoughts shall ever linger  
Around the spot where he is laid.  
—Inserted by Mr. and Mrs. Hill, (Senior and Junior).

### Keen Contest in Annual Sports

(Continued from Page One)

Coleman won the tug-o'-war from Bellevue without a dispute arising—the first time in the history of the meet. Bob Cruickshanks and Ambrose Casagrande counted almost a hundred points between them. Percy Chow, George Snood and Maxim Androschak were the best triers in Coleman public school. The results are not all to hand, but will be furnished later.

The Coleman team thank those who kindly loaned trucks to take them to the sports, including J. Salvador, J. S. D'Appolonia, S. Sicotte, G. Pattinson and others who went down with their cars.
